Software Engineer

May 2020- June 2020

- I've experienced the development process of creating an application for an employer.
- My team held daily meetings during this time frame, and we follow the Scrum agile process.
- During this time, I've dealt with both the front and back end process of developing an app.

SKILLS:

- **Languages:** C++, C, Java, SQL, HTML, CSS, JavaScript, Python
- **Application:** Microsoft Office
- **IDE:** Anaconda, CodeBlocks, Eclipse, Microsoft Visual Studio, NetBeans
- **Leadership:** Guided 20+ new students around the campus for two days.
- **Communication:** Presented a business pitch to a group of 15-20 students and demo of a functioning workout application.
- **Adaptability:** When presented with a new task or a new team, I quickly adapt to accommodate whatever the job demands.
